SHAHRIYAR KHAN

Software Engineer | Python • Django • FastAPI

Islamabad, Islamabad Capital Territory, Pakistan shahriyarkhanpk1@gmail.com +923110924560 in/shahriyar-khan786 github.com/Shahriyar-Kh

SUMMARY

Software Engineer with experience designing and developing scalable web applications and backend systems using Python, Django, and FastAPI. Strong understanding of software development lifecycle (SDLC), system design, and API-driven architectures. Experienced in building production-ready systems, integrating AI-powered features, and delivering reliable solutions in agile environments.

EXPERIENCE

Software Developer
HA Technologies (Private) Limited **June 2025 - Present, Islamabad**

- Developed scalable full-stack web applications serving real-world use cases using Django, DRF, FastAPI, and React.js.
- Designed secure backend architectures using JWT authentication and RBAC.
- Built scalable APIs and integrated frontend systems.
- Implemented PostgreSQL, MongoDB, and Redis for data and caching.
- Integrated AI-powered modules for intelligent application features.
- Deployed applications using Render and Vercel in agile environments.

Python Developer Intern
CodeAlpha Remote **February 2025 - May 2025**

- Developed desktop applications using Python, PyQt5, and Tkinter.
- Implemented event-driven architecture and API integrations.
- Improved workflows through automation and modular design.

Web Developer Intern
Abasyn University (Incubation Center)Peshawar **September 2024 - February 2025, Peshawar**

- Built full-stack applications using Django, PyQt5, and REST APIs.
- Led development team and managed task execution.
- Designed scalable systems with clean architecture and UI/UX improvements.

Python Development Intern
CognoRise InfoTech **October 2024 - December 2024**

- Developed Python-based applications with GUI and backend logic.
- Strengthened debugging, problem-solving, and development workflows.

PROJECTS

TechBuilt Open School (Startup Project) — In Progress
- Scalable full-stack LMS platform inspired by Coursera/Udemy.
- Built using Django REST Framework and Next.js with microservices-ready architecture.
- Features: course management, video streaming, quizzes, assignments, payments, certificates.
- Implemented JWT authentication, Redis caching, and Celery background tasks.
- Focused on building a production-ready EdTech platform.
- Tech Stack: Django, DRF, Next.js, PostgreSQL, Redis, Celery, JWT.
- Link: https://github.com/Shahriyar-Kh/TBOS.git.

SK-LearnTrack — AI Learning Platform (In Progress)
- Developed full-stack LMS using Django REST Framework and React.
- Implemented JWT authentication and student progress tracking.
- Integrated OpenAI APIs for AI-assisted learning features.
- Deployed using Render, Vercel, and Supabase PostgreSQL.
- Tech Stack: Django, DRF, React, PostgreSQL, OpenAI.
- Live: https://sk-learntrack.vercel.app.

NoteAssist-AI — AI-Powered Productivity Platform
- Built full-stack application using Django REST Framework and React.js.
- Designed secure REST APIs with JWT authentication and RBAC.
- Implemented PostgreSQL database and Redis caching for performance.
- Deployed using Render (backend), Vercel (frontend), Supabase.
- Tech Stack: Django, DRF, React.js, PostgreSQL, Redis, JWT.
- Live: https://noteassistai.vercel.app.

FeelWise — Multi-Modal Emotion Detection System
- Architected microservices-based AI system using FastAPI and Python.
- Built Node.js API Gateway with JWT authentication.
- Developed frontend with JavaScript and Chart.js for visualization.
- Used MongoDB Atlas for scalable data storage.
- Tech Stack: FastAPI, Python, Node.js, MongoDB, JWT.
- Live: https ://feelwise-emotion-detection.feelwise.workers.dev.

Advanced Restaurant Management System
- Built system using Python, Django, and PyQt5 for business operations.
- Implemented inventory, order tracking, and analytics dashboards.
- Focused on UI/UX improvements and efficient database handling.
- Tech Stack: Python, Django, PyQt5, SQLite.

SKILLS

Frontend: React.js, JavaScript, HTML5, CSS3, Bootstrap

Backend: Python, Django, Django REST Framework (DRF)

Databases: PostgreSQL, MongoDB, MySQL

Tools: Git, GitHub, Postman, Redis, Docker (basic)

Deployment: Render, Vercel, Supabase, Cloudflare, AWS(Learning)

AI: OpenAI API, Groq, Machine Learning (Intermediate)

Soft Skills: Problem-Solving, Collaboration, Leadership, Agile Development

EDUCATION

BS Software Engineering
Abasyn University, Peshawar • Peshawar • 2025 • 3.67

CERTIFICATIONS

Programming for Everybody (Python)
Coursera

Front-End Development
Coursera
